Subject: Submission of Utilization Documents for Sanctioned Financial Assistance

Respected Sir/Madam,

With reference to the financial assistance sanctioned vide letter no. 469/ICSSR-SRC/2025 dated 28.3.2025 for the conduct of the two-day National Conference on "Indian Knowledge System and AYUSH for Viksit Bharat" held on April 24–25, 2025, we are pleased to submit the required utilization documents for your kind perusal and records. The following documents are enclosed herewith:

1. Audited income expenditure statement
2. Expenditure statement and utilisation certificate
3. Cheque /online transfer
4. Detailed report
5. Short conference report
6. Brief note of Outcome of the National conference
7. Final Programme sheet (session wise)
8. Objectives of the National conference
9. List of Paper presenter
10. List of Participants
11. Statement of Expenditure detailing the actual expenses incurred.
12. Photographs and press clippings
13. Complete set of Papers
14. Published conference proceedings.

We attest that the authorized sum has only been used for the intended use and in compliance with your agency's directives. We genuinely appreciate the assistance provided by the ICSSR-SRC Research Agency and anticipate working together again in the future on academic and research projects.

Thanking you.

Yours faithfully,

Dr. Manikamma N. Sultanpur
Principal

Smt, C.B. Patil Arts and Commerce
Degree College, Chincholi

NATIONAL CONFERENCE REPORT

Title: Indian Knowledge System and AYUSH for Viksit Bharat

Dates: April 24–25, 2025

Venue: Chincholi

Organized by: Dept of Sociology

HKES Smt. C. B. Patil Arts and Commerce Degree College Chincholi

Supported by: ICSSR-SRC Hyderabad

Two Day National Conference On

“Indian Knowledge System and Ayush for Viksit Bharat” Organized By Department Of Sociology

Date: 24-04-2025 and 25-04-2025

Venue: College Function Hall

Smt. Chinnamma Basappa Patil Arts and commerce Degree College chincholi

Inaugural Session: 10.30 AM to 01.05 PM

The **Inaugural Session** of the National Conference on “*Indian Knowledge System and AYUSH for Viksit Bharat*” commenced with a soulful **inaugural song performed by the students**, creating a serene and reverent atmosphere. This was followed by the **lighting of the ceremonial lamp** by the esteemed Chief Guests, symbolizing the dispelling of ignorance and the ushering in of knowledge.

The **Welcome Address** was delivered by **Dr. Manikamma N. Sultalpur**, Organizing Secretary of the conference and Principal of **Smt. C.B. Patil Degree College, Chincholi**, who extended heartfelt greetings to all dignitaries, scholars, and participants. She emphasized the significance of integrating Indian Knowledge Systems and AYUSH into mainstream discourse to contribute meaningfully toward the vision of **Viksit Bharat**.

The session was graced by several distinguished guests:

- **Guest of Honour:** *Shri Ashok Patil*, Senior Educationist from Chincholi, who highlighted the relevance of traditional knowledge systems in contemporary education.
- **Special Guest:** *Prof. A.G. Khan*, Associate Professor, GFGC Chittapur, who shared insights on the academic potential of Indian Knowledge Systems.
- **Special Guest:** *Prof. Shindhe Jagannath R.*, Former Associate Professor, Department of Sociology, Gulbarga University, who reflected on the sociological dimensions of Indian traditions.
- **Chief Guest:** *Dr. Jaikishan Thakur*, Principal, SC/ST Residential GFGC, Gundepally, who underlined the importance of inclusive education through AYUSH and IKS.

- **Chief Guest:** *Shri Gopalrao Kattimani*, President of the College Alumni Association, who reiterated the role of alumni in preserving and promoting India's knowledge heritage.

The session concluded with a warm **Vote of Thanks** by **Miss Heena Begum**, Lecturer, Department of Commerce, who expressed gratitude to all guests, organizers, faculty, and students for their valuable contributions and active participation.

PLENARY SESSION 1

Date: 24-4-2025

Time: 12.15 pm to 1.30 pm

Panel Discussion: Industry and Technology for sustainable Development

Dr Bhadrappa Haralayya

Professor & HOD, Department of MBA,
Lingaraj Appa Engineering College ,Bidar

Dr. Rajendra Kunda

Principal Smt. V.G. College for women Kalaburagi

Chair: Prof. Dasharat Nainoor

Principal GFGC Sulepeth

Rapporteur: **Dr. N. H. Patil**

President Alumni Association Dept. of Sociology GUK

Plenary Session-1

“Industry and Technology for sustainable Development”

Immediately following the **Inaugural Session**, a thought-provoking seminar on the theme “**Role of the industry and technology in viksit Bharat**” was conducted, featuring esteemed experts from various academic and medical institutions. The session aimed to deepen the understanding of the pivotal role that AYUSH (Ayurveda, Yoga & Naturopathy, Unani, Siddha, and Homeopathy) can play in building a healthier and self-reliant India.

Dr. Bhadrappa Haralayya, Professor and Head of the MBA Department at Appa Engineering College, Bidar, delivered on “**TRANSFORMING INDIA: THE VITAL ROLE OF TECHNOLOGY AND INDUSTRY IN A VIKSIT BHARAT**” an insightful talk emphasizing the **Viksit Bharat 2047** envisions a developed India by the year 2047, focused on economic prosperity, social justice, environmental sustainability, and technological advancement. India has made remarkable strides in digital infrastructure, such as the Unified Payments Interface (UPI), which handles over 9 billion transactions monthly, and Aadhaar, providing a universal digital identity. The nation is investing heavily in technologies like

AI, robotics, and blockchain, and platforms like SWAYAM, DIKSHA, and e-Sanjeevani are transforming education and healthcare, particularly in rural areas. The **Make in India** initiative and **MSMEs** contribute significantly to India's GDP, while policies such as **PLI schemes** foster manufacturing growth, especially in key sectors like electronics and electric vehicles. Furthermore, India's thriving startup ecosystem is among the largest globally, with over 100 unicorns as of 2025.

In education, the **National Education Policy (NEP)** is promoting flexibility, critical thinking, and research orientation, with IITs, IIMs, and other institutions nurturing innovation and industry collaborations. The youth of India play a pivotal role, with initiatives like **PMKVY** and **Skill India** preparing them for future challenges. Programs like the **Atal Innovation Mission** and **Smart India Hackathon** encourage student-led problem-solving, while **NSS** and youth-led organizations contribute to community development. The government has launched various initiatives such as **Gati Shakti**, aimed at building integrated infrastructure for efficient logistics and reduced costs, boosting India's export potential. However, challenges such as unequal access to digital resources, underrepresentation of women in STEM, and balancing industrial growth with sustainability remain. India's Vision for 2047 is one of a globally respected, innovation-led, sustainable nation, where every citizen has access to equal opportunities. The call to action is clear: students must innovate and solve, educators must inspire and lead, and institutions must collaborate and nurture talent. Together, we can achieve **Viksit Bharat 2047**, as Swami Vivekananda once said, "Arise, awake, and stop not till the goal is reached."

Dr. Rajendra Konda, Principal, **Smt. V.G. Women's College, Gulbarga**, served as a distinguished resource person. He elaborated on the role of educational institutions in promoting AYUSH awareness among youth and emphasized the need for curriculum integration to foster future-ready citizens.

Chair: Prof. Dasharat Nainoor Principal GFGC Sulepeth delivered an insightful presentation highlighting the historical roots and modern relevance of AYUSH systems. He discussed how these ancient practices can be effectively adapted and integrated into today's healthcare and educational ecosystems to promote holistic well-being.

Dr.N.H Patil President of alumni association Gulbarga University , Kalaburagi who served as the Rapporteur. His efforts ensured that the key insights and outcomes of the session were recorded for future reference and dissemination. This seminar session was instrumental in highlighting the potential of India's traditional medical systems as a cornerstone for the nation's development vision **Viksit Bharat** by 2047.

PLENARY SESSION 2
AYUSH for Viksit Bharat

Date: 24-4-2025

Time: 2.00pm to 3.00 pm

***Prof. Dr. Abdul Gaffar**

Taluka Health officer, Chincholi

***Prof. Nayeemunnisa Begum**

Professor & Head, PG guide for MD Homeopathy at HKES

Dr Maalakareddy Homeopathic Medical College and Hospital Kalaburagi

Dr. G.Swati

Associate Professor in Zoology

Govt. Degree College(A) Nagari,

Chair: Dr A.G. Khan

Associate. Professor in Sociology

Govt, First Grade College Chittapur

Rapporteur: Miss Uma Patil

Secretary of Alumni Association

In **Plenary Session–II**, the seminar continued on the theme “**AYUSH for Viksit Bharat,**” focusing on the transformative potential of traditional health systems in shaping a self-reliant and developed India.

Dr. Abdul Gaffar Taluka Health Officer from Chincholi, gave an insightful talk on the integration of the AYUSH (Ayurveda, Yoga, Unani, Siddha, and Homeopathy) health system with the modern healthcare system. His presentation focused on the potential benefits of combining the strengths of both systems to offer a more holistic and effective approach to healthcare. Mr. Gaffar emphasized that AYUSH systems, with their focus on prevention, lifestyle management, and natural remedies, can complement modern medicine, which primarily focuses on treating diseases. He discussed how integrating these systems can provide more comprehensive patient care, addressing both the physical and emotional well-being of individuals. He also highlighted the growing importance of collaboration between AYUSH practitioners and modern healthcare providers in offering better healthcare services to the community, particularly in rural areas where access to healthcare facilities is limited. He spoke about the use of traditional practices like Ayurveda and Yoga for managing chronic conditions, improving immunity, and preventing lifestyle diseases, and how they can be effectively integrated with modern treatment modalities for enhanced outcomes. Moreover, Mr. Gaffar mentioned that such integration could lead to the development of integrated treatment protocols that bring together the best of both worlds—the evidence-based practices of modern medicine and the time-tested methods of the AYUSH system. He also highlighted the increasing recognition of AYUSH in public health initiatives, with the government incorporating these practices into the national health policy to

provide more accessible and affordable healthcare options. In conclusion, Abdul Gafar stressed the need for more collaborative efforts between AYUSH practitioners and modern healthcare professionals, as well as the importance of promoting research and education in integrated healthcare. By embracing both systems, he suggested, India could enhance its overall healthcare delivery, ensuring a more patient-centered, sustainable, and inclusive approach to health.

Dr. Nayeemunnisa MD (Homeo), Professor and Head, Department of Practice of Medicine, provided a comprehensive overview of the contributions of Homeopathy in preventive and curative healthcare. She stressed the importance of public awareness and accessibility of AYUSH systems in rural and underserved regions. Specifically focusing on the role of Homeopathy in geriatric care. In her presentation, titled "Safe Shoulder of Homeopathy in Geriatrics", she highlighted how Homeopathy can offer safe and effective treatment options for elderly individuals, addressing the unique health challenges they face. Resource person has discussed the various benefits of Homeopathic remedies in managing age-related health conditions, including chronic ailments, mobility issues, cognitive decline, and more. Emphasizing the holistic approach of Homeopathy, she explained that treatments are tailored to the individual's physical, emotional, and mental health, making it particularly suitable for the elderly population. Homeopathy is known for its minimal side effects, which makes it a safer alternative compared to many conventional treatments, especially for seniors who often have multiple comorbidities and are on polypharmacy.

She also highlighted the preventive aspects of Homeopathy in geriatrics, stressing its potential in boosting immunity, improving overall well-being, and preventing the onset of common age-related conditions like arthritis, diabetes, and cardiovascular diseases. By addressing the root causes of health issues rather than just alleviating symptoms, Homeopathy offers long-term benefits to elderly patients. The resource person concluded by reaffirming the importance of integrating Homeopathy into geriatric healthcare, ensuring that elderly individuals receive comprehensive, personalized, and safe treatment options for maintaining their health and quality of life.

Dr. G. Swathi, Assistant Professor, **Department of Zoology, GFGC Nagari, Andhra Pradesh,** shared an interdisciplinary perspective, exploring the biological basis and scientific relevance of AYUSH practices in improving immunity and public health outcomes.

Nature's Wisdom for a Healthy Mind: Herbal Bioactives in Neurological Care: Herbal bioactive components have garnered significant attention for their potential neuroprotective effects in treating various neurological disorders. These disorders, including Alzheimer's Disease, Parkinson's Disease,

Multiple Sclerosis, Epilepsy, and mood disorders like Depression and Anxiety, are characterized by neurodegeneration, inflammation, and oxidative stress, areas where herbal remedies show promise.

For **Alzheimer's Disease**, certain herbs exhibit anti-amyloidogenic and anti-tau properties, alongside anti-inflammatory and antioxidant effects, potentially slowing the disease's progression. In **Parkinson's Disease**, herbal components demonstrate antioxidant and anti-inflammatory actions, with some studies suggesting a reduction in alpha-synuclein aggregation, a protein linked to the disease. **Multiple Sclerosis (MS)** is also addressed by herbs with anti-inflammatory and immunomodulatory effects, which may help manage MS-related inflammation and immune responses. For **Stroke**, antioxidants and anti-inflammatory compounds from herbs may reduce neuronal damage. Similarly, in **Traumatic Brain Injury (TBI)**, compounds like curculmas have shown promise in reducing inflammation and oxidative stress. **Depression and Anxiety** disorders might also benefit from herbal remedies, with curcumin suggesting antidepressant-like effects. The primary objectives of research in this area include identifying bioactive compounds in herbal remedies with neuroprotective properties, understanding their mechanisms of action, and evaluating their safety and efficacy. The hypothesis driving this research is that specific herbal remedies containing targeted bioactive compounds will offer therapeutic benefits and neuroprotective effects for these neurological disorders.

Notable examples of such herbs include **Ashwagandha**, an adaptogen that reduces stress and has neuroprotective properties. It may alleviate anxiety and improve cognitive function by modulating the GABAergic system and protecting neurons from oxidative stress and inflammation. **Gotu Kola**, traditionally used for cognitive enhancement, may improve memory, learning, and mood through its promotion of nerve growth factor (NGF) and its antioxidant and anti-inflammatory effects. Both herbs contain key bioactive compounds, such as triterpenoid saponins in Ashwagandha and asiaticoside in Gotu Kola, which are believed to contribute to their neuroprotective actions. In conclusion, herbal bioactives offer a promising avenue for treating neurological disorders, providing potential benefits in neuroprotection and therapeutic efficacy. The research into these natural remedies could pave the way for innovative and complementary approaches to managing neurological health.

The first **Session Chair Dr. A.G. Khan**, Associate Professor at **GFGC Chittapur**, delivered an insightful presentation highlighting the historical roots and modern relevance of AYUSH systems. He discussed how these ancient practices can be effectively adapted and integrated into today's healthcare and educational ecosystems to promote holistic well-being. In the session, Resource person Dr. Nayeemunnisa, MD Homeopathic, Professor and Head of the Department of Practice of

Medicine, focused on the pivotal role of Homeopathy in geriatric care, highlighting its contributions to both preventive and curative healthcare. Her presentation, titled "Safe Shoulder of Homeopathy in Geriatrics," underscored the significant benefits of Homeopathy for elderly patients, particularly in managing the complex health issues that arise with aging. She discussed how Homeopathic treatments offer safe, personalized, and holistic care, addressing not just the physical symptoms but also the emotional and mental well-being of the elderly, making it an ideal choice for geriatric healthcare.

Dr. G. Swathi, Assistant Professor, **Department of Zoology, GFGC Nagari, Andhra Pradesh**, second resource person of the session also discussed the growing interest in Nature's Wisdom for a Healthy Mind, focusing on the potential of herbal bioactive components in treating neurological disorders. Herbal remedies have shown promise in managing various neurodegenerative conditions like Alzheimer's Disease, Parkinson's Disease, Multiple Sclerosis, Epilepsy, and mood disorders such as Depression and Anxiety. These disorders are often associated with neurodegeneration, inflammation, and oxidative stress areas where herbal bioactives have demonstrated neuroprotective effects. For instance, in Alzheimer's Disease, certain herbs show anti-amyloidogenic and anti-tau properties, while in Parkinson's Disease, they help with antioxidant and anti-inflammatory actions, potentially preventing the aggregation of proteins involved in the disease. Similarly, in conditions like Epilepsy and Multiple Sclerosis, herbal treatments exhibit anti-inflammatory and immunomodulatory properties. The potential of these natural remedies is being explored as innovative and complementary approaches to managing neurological health, especially in aging populations, where the risk of such disorders increases. Together, these discussions highlight how both Homeopathy and herbal bioactives can contribute to enhancing the health and quality of life of elderly individuals, offering natural, safe, and effective alternatives to manage the challenges of aging and neurodegenerative diseases.

The second **Session Co Chair, Dr. Jaikishan Thakur**, Principal of **SC/ST Residential GFGC, Gundepally**, spoke on the importance of inclusive health practices. He emphasized the accessibility and affordability of AYUSH systems, especially for marginalized communities, and advocated for stronger policy support and grassroots-level implementation.

The session was meticulously documented by **Miss Uma Patil, Secretary of the Alumni Association of Smt. C.B. Patil Degree College, Chincholi**, who served as the **Rapporteur**. Her efforts ensured that the key insights and outcomes of the session were recorded for future reference and dissemination. This plenary session underscored the crucial role of AYUSH in achieving equitable healthcare, sustainability, and national progress aligned with the vision of **Viksit Bharat 2047**.

TECHNICAL SESSION REPORT DETAILS

Theme: Foundations of Indian Knowledge Systems for Viksit Bharat

Date 24-04-2025

Timing:- 2:00 to 3:00

Chair: Dr. Sedamkar

Asst. Prof in Sociology

S.S Maragor Degree College, Chincholi

Rapporteur: Dr. Amaresh

Dept of Computer Science

Smt. C. B. Patil Degree College, Chincholi

First Technical Session Presentation List-1

Sl. No	Author/Designation	Title Of The Paper
1	Dr.Vishwanath Bellad.	Objectives Of India For Viksit Bharat 2047: A Sociological Study
2	Dr. Suryakant Ashtage	Challenges In Achieving Viksit Bharat @ 2047
3	Dr.Shreedevi Siddanna	Viksit Bharat @ 2047 : Transforming Future Of The Nation
4	Dr. Sabiya Hamidmiya	Viksit Bharat@ Social, Political And Economic Inclusion
5	Dr. Nuzhath Parveen	women in Muslim family at Chittapur A sociological study
6	Dr.Radhika Mk	Empowering Innovators: The Path To Viksit Bharat
7	Dr.Vishwanath Jayanand	Impact Of Indian Knowledge Systems On Sustainable Development

9	Dr.Shankar Basavant	Buddhism And Ayurveda
10	Dr. Divya K Wadi	Issues And Challenges Of Viksit Bharat @2047"
11	Dr. Amaresh G T	Role Of Technology In Building Viksit Bharath
12	Dr.Basavaraj Naganna	Education And Skill Development For Viksit Bharat
13	Dr. Maitradevi Shivaraya	Changing Social Empowerment In Viksit Bharat 2047
14	Dr. Sujeeth Kumar S/O Swaroop Kumar	Role Of Industry In Building Viksit Bharath
15	Dr.Mineel Kumar.Balachandra	Empowering Women For Viksit Bharat : Challenges, And Impact

First Technical Session Presentation Report

A total of **15 participants** presented their research papers during the first Technical Session held on 24th April 2025. Presentations included: The session featured a wide array of interdisciplinary studies, all aligning with the central theme of "Indian Knowledge Systems and AYUSH for Viksit Bharat." The session concluded with active Q&A and discussions on IKS, Impact Of Indian Knowledge Systems On Sustainable Development, Viksit Bharat@ Social, Political And Economic Inclusion, Viksit Bharat @ 2047 : Transforming Future Of The Nation, Objectives Of India For Viksit Bharat 2047:

SECOND TECHNICAL SESSION

Theme: AYUSH for Viksit Bharat

Date 24-04-2025

Timing: -3:00 to 4:00

Chair: Dr. Ramesh L Asso. Prof in Economics
S.S Maragor Degree College, Chincholi

Rapporteur: Dr. Shankar
Assistant Professor, Department of English,
Smt. C. B. Patil Degree College, Chincholi

Second Technical Session Paper Presentation List

Sl. No	Paper presenters Name	Title Of The Paper
1	Maktumbi Basheer Ahemad Prof.Shanta. B. Astige	Global Demand For Ayush Products
2	Sangeetadgopal Dr.Jaikishan thakur	Role Of Industry And Technology In Building Viksit Bharat
3	Jaganath Ramgonda Gari Dr.Shanta. B. Astige	Ayurvedic Concepts For Work-Life Balance

Technical Session Presentation Report

Date24-04-2025

Timing:- 3:00 to 4:00

A total of 15 participants presented their research papers during the Second Technical Session held on 24th April 2025. The session featured a wide array of interdisciplinary studies, all aligning with the central theme of “Indian Knowledge Systems and AYUSH for Viksit Bharat.” The presentations were based on a combination of primary and secondary data. Researchers conducted field visits and direct community interactions to collect first-hand, authentic data that provided practical insights into the traditional systems. These primary findings were further supported by extensive secondary research, which added academic rigor and theoretical depth to the studies. This dual approach ensured a well-rounded and credible contribution to the field. The session concluded with active Q&A and discussions on IKS ,This session was skilfully documented and coordinated by the Session Rapporteurs.

Their meticulous documentation and efficient coordination ensured that the session progressed smoothly, with each presentation receiving due attention and discussion. The rapporteurs captured critical observations and insights, contributing to the academic value and continuity of the conference proceedings. This session not only highlighted the growing scholarly engagement with India’s traditional knowledge systems but also underscored the relevance of integrating such wisdom with contemporary academic and developmental frameworks key to achieving the vision of Viksit Bharat 2047.

Cultural Program: In the evening, a cultural showcase was organized, featuring classical Indian dance, music, and demonstrations of traditional healing techniques...

THIRD TECHNICAL SESSION

Technical Session III: Multidisciplinary approach on Viksit Bharat

Chair: Basavaraj .N. Wadekar

THIRD TECHNICAL SESSION REPORT

A total of 20 participants presented their research papers during the Third Technical Session held on 25th April 2025. This session witnessed a rich exchange of ideas and interdisciplinary perspectives, all centered around the unifying theme of “Indian Knowledge Systems and AYUSH for Viksit Bharat.” The research presented was grounded in a blend of primary and secondary data sources. Participants undertook extensive fieldwork and direct community interactions to gather primary data, ensuring the relevance and authenticity of their findings. This hands-on approach brought forth practical insights into the application and perception of traditional knowledge systems. The primary data was complemented by secondary research, drawing from classical texts, academic literature, and existing studies, thereby adding conceptual depth and scholarly credibility to each presentation. This session was expertly documented and coordinated by the dedicated Session Rapporteurs: Smt. Shilpa Patil Assistant Professor, History , Smt. C. B. Patil Degree College, Chincholi . Chair: Basavaraj .N.Wadekar Asst. Professor in Sociology, Smt. C. B. Patil Degree College, Chincholi. Their systematic documentation and thoughtful coordination ensured that the session was organized, inclusive, and impactful. The rapporteurs accurately recorded key insights, observations, and feedback, contributing significantly to the academic value and overall success of the conference proceedings. This session not only showcased the academic community's increasing interest in indigenous knowledge systems but also reinforced the importance of bridging traditional wisdom with modern development goals. It highlighted the vital role that AYUSH and Indian Knowledge Systems can play in realizing the vision of a holistic, sustainable, and self-reliant Viksit Bharat by 2047.

Day 2: April 25, 2025

PLENARY SESSION 3

Panel Discussion: "Indian Knowledge Systems"

Resource person: Shri Ashok Patil

Educationist , Chincholi Taluka

Resource person: Dr. Umashankar,

AYUSH Doctor at the Taluk Hospital, Chincholi,

Chair: Prof. Sindhe Jaganath.R

Former Professor

Dept. Of studies and Research in Sociology GUK

Rapporteur: Laxman Aounti

Vice president of Alumni association

Plenary Session – III: “INDIAN KNOWLEDGE SYSTEM ”

Plenary Session–III was dedicated to deepening the understanding of India’s intellectual and healthcare heritage through two interconnected themes: **“Indian Knowledge System”** The session featured esteemed scholars and practitioners who provided valuable insights into India's traditional wisdom and its relevance to modern nation-building.

Resource person of the Session Shri Ashok Patil, Senior Educationist from Chincholi, further expanded on the Indian Knowledge System, stressing the importance of reintroducing ancient Indian pedagogical methods in today’s academic curriculum. He advocated for a holistic model of education rooted in Indian ethos to foster critical thinking and cultural pride among youth. Shri Ashok Patil, a Senior Educationist from Chincholi, was the resource person for the session and delivered a profound discussion on the *Indian Knowledge System* (IKS). He emphasized the importance of reintroducing ancient Indian pedagogical methods into modern academic curricula. Shri Patil drew attention to the rich heritage of India’s education system, which is deeply rooted in philosophical, spiritual, and cultural teachings.

He discussed the significance of classical texts like the Puranas, Bhagavad Gita, Smritis, and Upanishads, which have been the cornerstone of Indian education for centuries. Shri Patil emphasized that these texts not only contain profound philosophical insights but also practical knowledge on ethics, governance, and personal development. He highlighted how incorporating these ancient texts into the curriculum can provide students with a holistic understanding of life and society, fostering both intellectual and moral growth. Furthermore, he highlighted the concepts of *Shravan* (listening), *Samskar* (values and character building), and *Yoga* (holistic well-being) as essential elements of the Indian knowledge system that can greatly benefit modern education. Shri Patil also stressed the *Guru-Shishya Parampara* (teacher-student tradition), which emphasizes a deep, personal connection between educators and learners, focusing on mentorship, knowledge transfer, and values.

In addition to the academic aspects, Shri Patil discussed the importance of instilling social concern, self-sacrifice, and service to society in today's youth. He called for a revival of the sense of duty and responsibility towards society that was prevalent in ancient India. He highlighted that the youth should be encouraged to take decisive actions in shaping the future of India, emphasizing the role of values and nationalistic spirit in determining the country's path forward. Shri Patil concluded by stressing that the youth of today hold the key to how India will stand in the future. By integrating the wisdom of the Indian Knowledge System with contemporary education, the nation can empower its young citizens to contribute meaningfully to India's growth and development in the coming years. He urged educational institutions to promote this balanced approach of combining tradition with modernity to build a progressive and enlightened society.

Resource person of the Session Dr. Umashankar, an AYUSH Doctor at the Taluk Hospital, Chincholi, presented a detailed seminar on “**AYUSH for Viksit Bharat.**” He focused on the practical applications of AYUSH in rural healthcare delivery, emphasizing its affordability, preventive approach, and community acceptance. His insights underscored AYUSH's potential to serve as a pillar in achieving universal health coverage and national wellness. Dr. Umashankar, an AYUSH doctor at the Taluk Hospital in Chincholi, served as the resource person for the session and delivered a comprehensive seminar on “*AYUSH for Viksit Bharat.*” In his presentation, Dr. Umashankar emphasized the vital role of AYUSH (Ayurveda, Yoga, Unani, Siddha, and Homeopathy) in contributing to India's vision of becoming a *Viksit Bharat* or a developed India by 2047. He discussed how AYUSH systems, with their focus on holistic and preventive healthcare, can significantly improve the overall well-being of the population. Dr. Umashankar highlighted the benefits of integrating traditional healing practices with modern healthcare strategies to address the

health challenges facing India, especially in rural and underserved areas. He explored how AYUSH therapies could complement conventional medical treatments and provide sustainable, accessible, and affordable healthcare options to the masses.

Dr. Umashankar also shed light on the role of AYUSH in the prevention of lifestyle diseases, promoting mental wellness, and addressing emerging health issues like stress, anxiety, and chronic conditions. He emphasized the importance of leveraging these traditional systems to support India's growing healthcare infrastructure, especially in light of the increasing burden of non-communicable diseases and the aging population. In the context of *Viksit Bharat*, Dr. Umashankar's presentation illustrated how the integration of AYUSH can play a crucial part in achieving a healthier, more resilient India. By promoting wellness, preventive care, and alternative healing practices, AYUSH could contribute to the broader goal of sustainable and inclusive development, aligning with India's aspirations for global leadership in health and wellness by 2047.

Prof. Shindhe Jagannath R., Former Associate Professor, Department of Sociology, Gulbarga University (GUK), delivered a compelling lecture on the “**Indian Knowledge System.**” As session chair covering all resource persons talk. He explored the sociological foundations of Indian traditions, highlighting how values, customs, and indigenous practices have contributed to societal harmony, ethical living, and intellectual advancement. His address emphasized the urgency of preserving and integrating these systems into contemporary education and public policy.

Shri Laxman Aounti Vice president of Alumni association who served as the **Rapporteur**. Her efforts ensured that the key insights and outcomes of the session were recorded for future reference and dissemination.

This session powerfully demonstrated how the Indian Knowledge System and AYUSH can together play a transformative role in realizing the vision of **Viksit Bharat 2047**, fostering a self-reliant, healthy, and culturally enriched society.

VALEDICTORY SESSION

Anchoring: Shri Kashinath Hunaje Lecture in Kannada

Welcome: Dr. Basawaraj Asst. Professor in Sociology

Chief Guest: Shri Naganna S. Ghanti College Convener HKE Society Kalaburagi

Way Forward: Dr. M.N.Sultanpur Principal

shared insights on the role of Indian traditions in achieving a developed India.

Report of the Conference sessions: Smt. Sunita Madagi : Lecturer in Economics

Vote of Thanks : by Miss Bibi Mariyamma, Miss Sahista Banu and the Organizing Secretary, expressing gratitude to dignitaries, speakers, volunteers, and participants.

The valedictory session of our conference was marked by insightful reflections and expressions of gratitude. The program began with a warm welcome address by **Dr. Basawaraj**, Asst. Professor in Sociology, who graciously welcomed the dignitaries and participants.

The event was anchored with great poise and enthusiasm by **Shri Kashinath Hunaje**, who ensured the smooth flow of the proceedings in Kannada.

Our **Chief Guest, Shri Naganna S. Ghanti**, delivered an inspiring address, emphasizing the relevance of education, culture, and tradition in building a progressive and inclusive society.

A significant highlight of the session was the address by **Dr. M.N. Sultanpur**, who shared valuable insights on **the role of Indian traditions in achieving a developed India**. Her thoughts provided a visionary roadmap for harmonizing cultural heritage with modern development.

Smt. Sunita Madagi, Lecturer in Economics, presented a concise and comprehensive **report of the conference sessions**, summarizing the key discussions and outcomes.

The session concluded with a heartfelt **Vote of Thanks** delivered by **Miss Bibi Mariyamma and Miss Sahista Banu**, who expressed gratitude to all speakers, guests, participants, and organizers for their contributions in making the event a grand success.

The valedictory session not only marked the end of a meaningful conference but also sowed seeds for future discussions and collaborative learning.

CHIEF GUEST

Shri Naganna S. Ghanti delivered speech on The Role of Indian Traditions in Achieving a Developed India

Shri Naganna S. Ghanti, our esteemed Chief Guest, delivered an inspiring and thought-provoking address on the vital role that **Indian traditions** play in shaping a **Developed India (Viksit Bharat)**.

He began by emphasizing that India's civilizational wisdom, deeply rooted in its spiritual, cultural, and philosophical traditions, is not just a heritage of the past but a guiding force for the future. According to him, development should not be seen merely in terms of GDP or infrastructure, but as **holistic progress** encompassing **moral, spiritual, ecological, and emotional well-being**. He elaborated on several core aspects of Indian traditions that contribute to nation-building:

Value-Based Living, family system, Sustainability and Environmental Harmony, Traditional Knowledge Systems and Spiritual Resilience and Inner Strength. Indian Traditions like *dharma*, *seva* (selfless service), and *satyam* (truth) have been at the heart of Indian society. These values cultivate responsible citizenship and ethical governance, which are essential for sustainable development. Shri Ghanti highlighted how the Indian joint family system, mutual respect for elders, and community-centered practices foster social security and emotional stability aspects that are increasingly valuable in today's fast-paced world. Citing ancient practices such as *Vruksha Devata* (tree worship), water conservation rituals, and seasonal dietary customs, he stressed how Indian traditions have always promoted **eco-friendly living**, aligning with modern concepts of sustainable development.

He pointed out that disciplines such as **Ayurveda, Yoga, Vastu Shastra**, and indigenous agricultural practices carry immense potential for contributing to health, wellness, and innovation when integrated with modern science. Indian traditions foster a deep sense of self-awareness, mindfulness, and inner peace. These spiritual values, he said, are crucial for mental health, leadership, and resilience especially in times of crisis. Shri Ghanti concluded by stating that the path to a **Viksit Bharat** must be uniquely Indian drawing strength from our timeless traditions while embracing innovation and global progress. He called upon educators, youth, and policymakers to take pride in their heritage and use it as a foundation for building a **self-reliant, inclusive, and enlightened India**.

Way Forward: by Principal about Indian Knowledge System and AYUSH for Viksit Bharat

To achieve the goal of Viksit Bharat (Developed India), the Indian Knowledge System (IKS) and AYUSH (Ayurveda, Yoga & Naturopathy, Unani, Siddha, and Homeopathy) must be incorporated into the national development agenda. The following actions are crucial as we proceed: Including IKS and AYUSH concepts in curricula at the school and university levels can promote respect and appreciation of India's scientific and cultural legacy. It is necessary to encourage interdisciplinary research that connects traditional knowledge with contemporary science. Encouraging Evidence-Based Research, Clinical studies and thorough scientific validation are necessary to support AYUSH

systems. Credibility and international acceptance can be increased by establishing Centers of Excellence and working with international research institutions.

Modern medicine can be enhanced by bolstering primary healthcare delivery through AYUSH methods. Public health strategies should incorporate wellness facilities, preventive care, and lifestyle therapies like yoga for Improving Public Health with AYUSH. Promoting new businesses and ideas based on Indian traditional knowledge, such as sustainable practices and herbal items, can strengthen the economy and provide jobs for Innovation and Entrepreneurship in IKS. To safeguard, advance, and institutionalize IKS and AYUSH, a strong policy framework is required. It is also necessary to protect biodiversity and traditional knowledge through the protection of intellectual property rights (IPR). It needs to y Support Polic for Institutional Framework. Soft power can be derived from India's wealth of traditional knowledge. India can bolster its global leadership by promoting AYUSH internationally through wellness tourism, education, and diplomacy. In conclusion, we may create a sustainable, inclusive, and culturally anchored Viksit Bharat by balancing the knowledge of the Indian Knowledge System and the comprehensive methods of AYUSH with contemporary developmental objectives.

HIGHLIGHTS OF THE CONFERENCE

1. **Grand Inauguration Ceremony:** The event was inaugurated by eminent dignitaries, with a ceremonial lamp lighting and keynote address emphasizing the revival of Indian traditional knowledge in modern nation-building.
2. **Over 105 Participants:** The conference saw enthusiastic participation from scholars, AYUSH practitioners, faculty, students, and policymakers from across the State.
3. **Presentation of 45 Research Papers:** Papers were presented across three technical sessions focusing on Vedic sciences, public health through AYUSH, and innovations in traditional medicine systems.
4. **Focused Panel Discussion on “IKS and AYUSH for Viksit Bharat 2047”:** Experts from academia and government bodies discussed the integration of Indian Knowledge Systems and AYUSH into national development policies and education reforms under NEP 2020.
5. **Cultural Evening Showcasing Indian Traditions:** A cultural program celebrating India's heritage featured classical music, yoga demonstrations, and traditional healing practices.
6. **Policy Recommendations & Academic Proposals:** Discussions led to actionable suggestions for including IKS and AYUSH in mainstream education and public health systems.
7. In each and every plenary session as well as the technical session a meaningful discussion was taken place by raising questions , doubts clearance and followed with suggestion too.
