

## **BRIEF NOTE OF OUTCOME OF THE NATIONAL CONFERENCE**

The National Conference on "Indian Knowledge System and AYUSH for Viksit Bharat" lasted two days and produced a number of important academic and institutional contributions are as follows:

- **Enhanced Knowledge and Involvement in Academic Activities:** The conference successfully raised awareness of the significance of Indian Knowledge Systems and AYUSH in nation-building by bringing together scholars, students, and practitioners from a range of fields.
- **Interdisciplinary plenary session and Conversation:** By providing experts in traditional medicine, Sanskrit, philosophy, education, and policy with a common platform to discuss and share research, the event fostered multidisciplinary collaborations.
- **Curriculum and Policy Suggestions:** The National Education Policy (NEP 2020), higher education curricula, and public health initiatives can all benefit from the thoughtful suggestions made during plenary discussions.
- **Encouragement of Innovation and Research:** Emerging academics were encouraged to concentrate on projects pertaining to Ayurveda pharmacology, yoga-based therapy, and the digitization of ancient literature.

**The importance of traditional knowledge systems:** The significance of India's traditional knowledge systems in achieving the objective of a fully developed, autonomous, and culturally diverse Viksit Bharat by 2047 was emphasized at the plenary discussions and discussing in deep details. The outcome observation was noticed discussion in two days conference is that beginning of new trends in the field of Rural health seeking Mass behaviour is slowly shifting towards the AYUSH as a frontline treatment as well as Home remedies got placed in a force of preventive methods and this is a good for the sigma for as Indian rural quadrant is covid in the field of health and wellbeing is caused.
