

## Objectives of the two day National Conference

The primary objectives of the two day National Conference on "*Indian Knowledge System and AYUSH for Viksit Bharat*" were:

- To emphasize the importance of Indian Knowledge Systems (IKS), which comprise ancient sciences, Sanskrit literature, and Vedic knowledge, in creating an independent and culturally anchored India.
- To investigate how AYUSH (Ayurveda, Yoga, Unani, Siddha, and Homeopathy) contributes to the national development agenda's goal of holistic health and well-being.
- To encourage academic collaboration and interdisciplinary research among researchers, practitioners, and students from both conventional and contemporary fields of knowledge.
- To make traditional systems more in line with the "Viksit Bharat 2047" vision by promoting their incorporation into national policies, healthcare, and education systems.
- To provide a venue for discussion on the application, preservation, and innovation of IKS and AYUSH in contemporary culture.
- To encourage cooperation between AYUSH experts, policymakers, and academic institutions in order to create a sustainable and inclusive future.
